## ABOUT ME

Engineer with a passion for blockchain technology and frontend development. My background in electronics engineering provides me with a strong foundation in critical thinking and complex problem-solving. What distinguishes my journey is my self-driven dedication to frontend development, where I have acquired advanced skills through continuous self-learning.

## EDUCATION

-  **Industrial and Automatic Electronic Engineering**  
*Universidad de Las Palmas de Gran Canaria, 2019-2024*
-  **Extracurricular Internship**  
*IUMA-ULPGC, 09/2023 - 12/2023*
  - I fully developed a prototype of a remote educational laboratory for hyperspectral imaging
